

# Linuxuk Stock Notification System for BootStrap osCommerce

This add on is written for osCommerce Bootstrap

Stock System,

## Installation

To install this add on if you have a fresh and new installation of osCommerce BS run the SQL (notify.sql) in phpmyadmin, upload the files overwriting existing files, you are done.

If you have a store with modifications then use a file compare program and update the files, all edits are commented.

If you need this add on installed please [contact me here at the forum](#) or [here on my site](#) please note this is not a free service.

This add on will present stock levels to your customers via a RAG system (Red, Amber, Green) if no stock a Link is provided to allow the client to register an alert.

There is a report in your admin to tell you who has requested what

When a client requests to be alerted the info is stored in to the database, when you add stock again the script will automatically and instantly email the clients that the product is back in stock and remove them from the database.

If the client is logged in the form will auto populate, and a separate page to view alerts is available from their account page, here they can view, or delete the alert.

## **Settings**

To get the best from this system I suggest you turn on HTML emails.

Admin >> Configuration >> Email Options >> Use MIME HTML When Sending Emails – Set True. **Set**

## **the Lower and Medium stock Breaks**

Admin >> Configuration >> Stock

Lower Limit will product the Low Stock message

Medium Limit will produce the Medium stock message

Above the Medium limit will produce the Plenty of stock message.

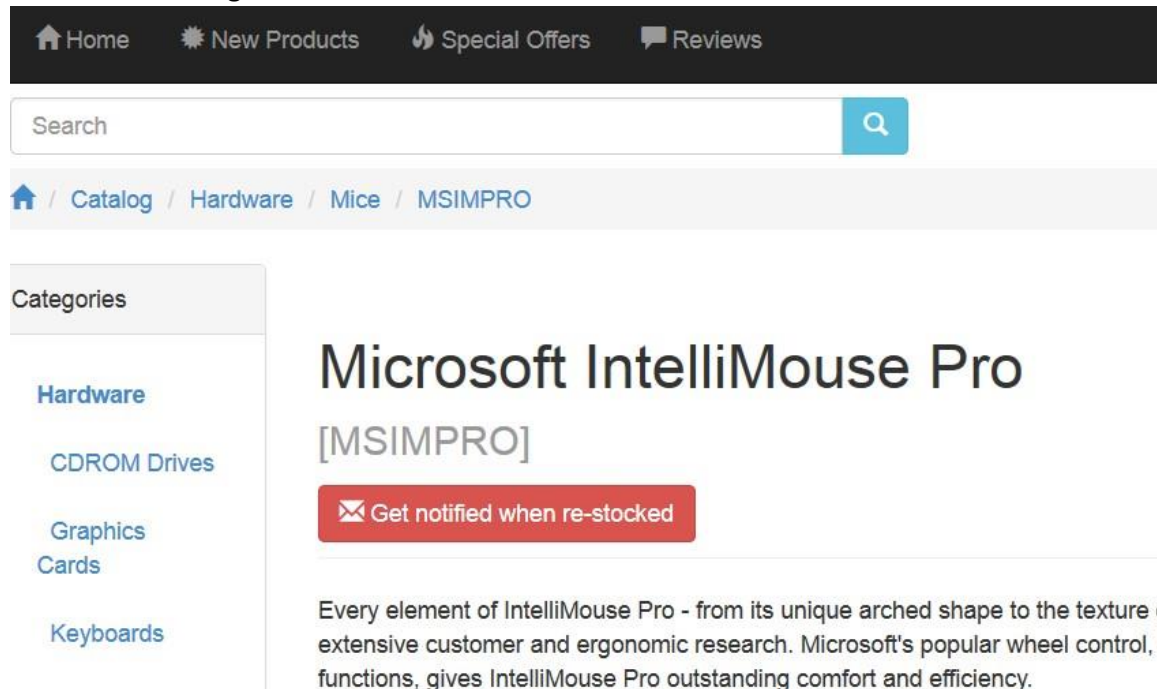

## **View stock Alerts**

Admin >> Customers >> Stock Alerts

## Out of Stock message

The screenshot shows the product page for the Microsoft IntelliMouse Pro. At the top, there is a navigation bar with links: Home, New Products, Special Offers, and Reviews. Below this is a search bar. The breadcrumb trail indicates the path: Home / Catalog / Hardware / Mice / MSIMPRO. On the left, a 'Categories' sidebar lists Hardware, CDROM Drives, Graphics Cards, and Keyboards. The main content area features the product title 'Microsoft IntelliMouse Pro' with the code '[MSIMPRO]' below it. A red button with a mail icon and the text 'Get notified when re-stocked' is prominently displayed. Below the button, a paragraph describes the mouse's ergonomic features.

Home / Catalog / Hardware / Mice / MSIMPRO

Categories

- Hardware
- CDROM Drives
- Graphics Cards
- Keyboards

## Microsoft IntelliMouse Pro

[MSIMPRO]

✉ Get notified when re-stocked

Every element of IntelliMouse Pro - from its unique arched shape to the texture of its buttons - is the result of extensive customer and ergonomic research. Microsoft's popular wheel control, 10 programmable buttons, and IntelliMouse Pro's advanced functions, gives IntelliMouse Pro outstanding comfort and efficiency.

## POP up Box [Client not logged in]

The screenshot shows a popup form titled 'Notify me when back in stock'. It contains a message: 'Notify me when "Microsoft IntelliMouse Pro" is re-stocked.' Below this are two input fields: 'Your Email Address:' and 'Your Name:'. At the bottom, there is a 'Submit' button. A small text block asks 'Customer?' and provides a link: 'By logging in you will be able to manage your alerts and have more features, or you can create an account.'

Notify me when back in stock

Notify me when "Microsoft IntelliMouse Pro" is re-stocked.

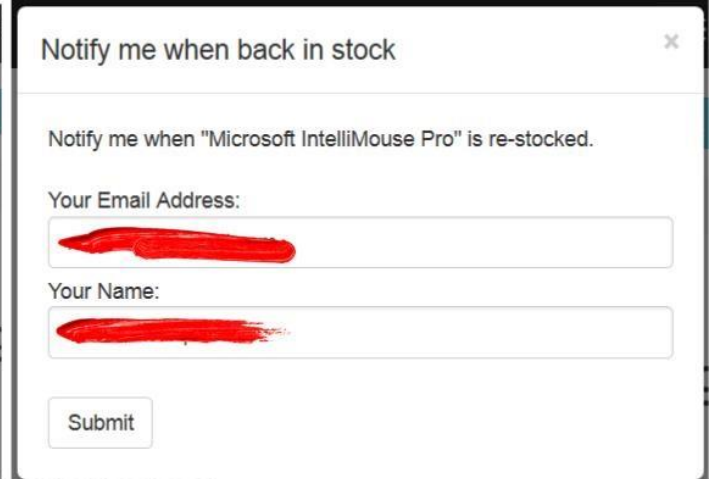

Your Email Address:

Your Name:

Customer?  
By logging in you will be able to manage your alerts and have more features, or you can create an account

Submit

## POP up Box [Client Logged in] form is populated.

The screenshot shows the same popup form as the previous one, but for a logged-in client. The 'Your Email Address:' and 'Your Name:' fields are pre-filled with redacted information (indicated by red scribbles). The 'Submit' button is still present at the bottom.

Notify me when back in stock

Notify me when "Microsoft IntelliMouse Pro" is re-stocked.
